

M SERIES

MODULAR MIST COLLECTORS

Exomist M is a series of oilmist collectors for large machine tools or centralized systems.

It is a modular system based upon M4000 stand alone base unit, full optional solution that includes a standard HEPA filter set.

- × To eliminate: Oilmist, vapors and smoke
- × Easy direct filter removal
- × Modular: M4000/8000/12000
- × Extended filtration area

- × Full Optional
- × Filter saturation LED alarm system
- × Frequency inverter drive
- × Standard HEPA filter

CLEANER PRODUCTIVITY

M SERIES | COMPONENTS

FILTERS LIFETIME

Extra long filter lifetime is ensured by the large filtration surface and specific type of media selected.

RELIABILITY AND EASY MAINTENANCE

Each filtration stage is easily accessible in order to simplify maintenance procedures with the clear objective to cut down time and costs.

Led ON

Green led light to visualize when the unit is on and running

Motor Fan

The motor fan assembly allows for several possible combinations in order to reach the desired air flow rate. Integrated sound proof insulation panels

Frequency Inverter

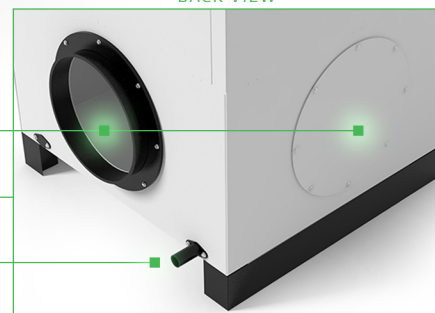

Control pad with start/stop and possibility to adjust air flow rate according to he need. Each of the 3 filtration stages is monitored by a led light that provides 3 steps alarm indication

Led Alarm Indicators

Can be installed on left or right side

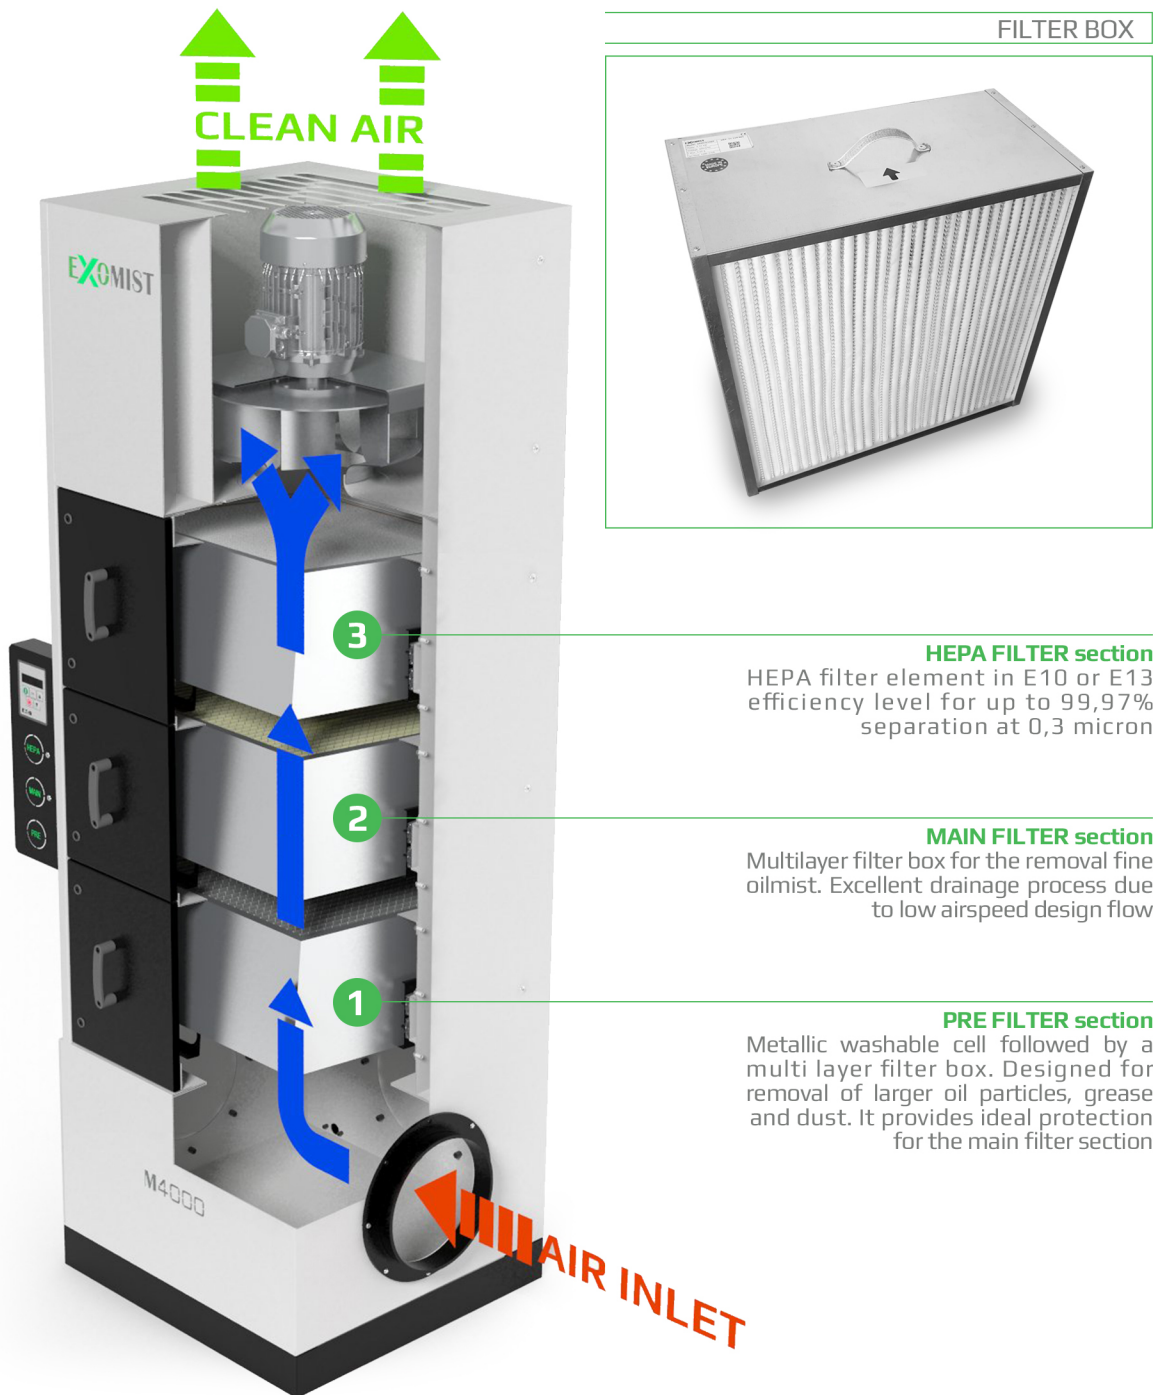

BACK VIEW

Air inlet removable connecting plate

Threaded drainage connector

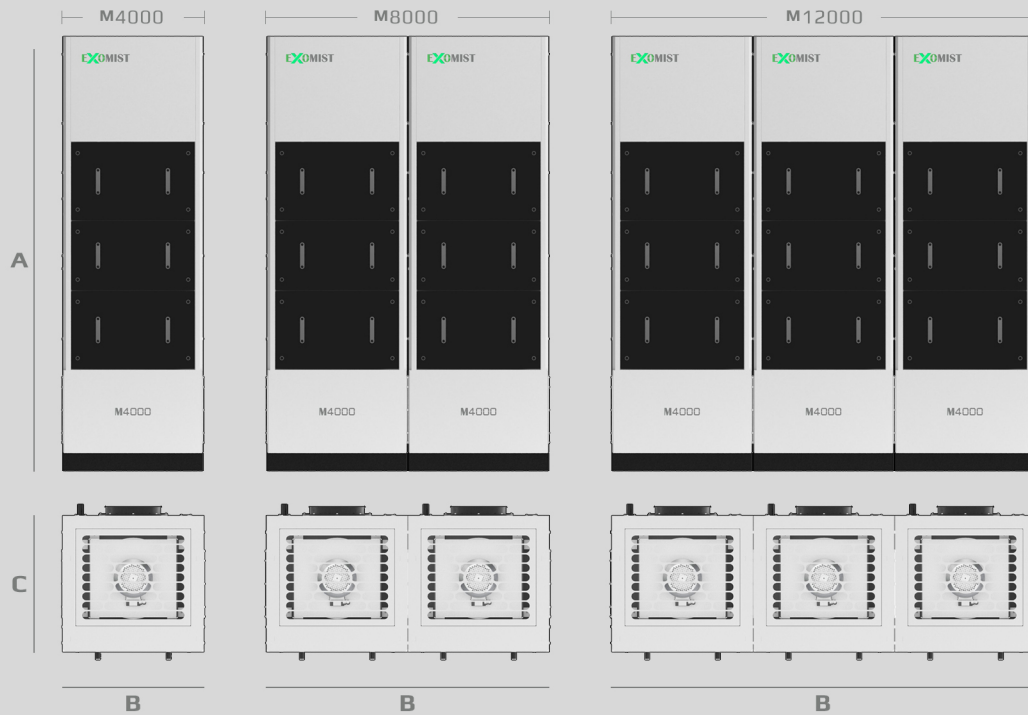

M SERIES | FILTRATION EFFICIENCY LEVEL

M SERIES | ACCESSORIES

- 01. Pump to convey drained coolant (oil application)
- 02. Silencer extra
- 03. Machine tool interface

M SERIES | DIMENSIONS

(mm)	M4000	M8000	M12000
A	2500	2600	2600
B	800	1650	2500
C	800	800	800

M SERIES | TECHNICAL DATA

	M4000	M8000	M12000
Nominal Air flow rate (m ³ /h)	4000	8000	12000
Sound Level (dB)	75	77	79
Weight (kg)	480	980	1480
Motor (kW)	5.5	2x 5.5	3x 5.5

Units painted in RAL 7035/7037 (special colors available upon request).
